Profile

Motivated and dedicated undergraduate with strong interest in UI/UX design, frontend development, and digital product creation. I have completed a Frontend Development Internship at CodeAlpha, where I built responsive web interfaces and applications using HTML, CSS, and JavaScript, and practiced UI/UX processes including wireframing, prototyping, and user-centered interface design using tools like Figma and Canva.

With a strong foundation in design, development, and leadership, I am eager to contribute to a professional environment, learn from industry mentors, and grow through meaningful internship opportunities. I am committed to continuous learning, creativity, and delivering high-quality work.

EDUCATION

BICT. (Hons) in Information Communication Technology., *University of Jaffna* 01/2023 – Present
Vavuniya, Sri Lanka

G.C.E. Advanced Level - Engineering Technology(2020 Batch)

SFT- B, E-TEC - C, ICT - S

Certificates

- Diploma in Information Technology(2018)
- Diploma in Computerized Accounting(2018)
- Graphics Designing (10th January 2018 to 10th May 2018)
- Diploma in Computer Science(10th January 2018 to 10th May 2018)

LANGUAGES

- English
- Tamil
- Sinhala

Projects

Learning management system, *Learning Management System (LMS) – Project*

Developed a web-based LMS with secure authentication and role-based access. Admins manage users, courses, assignments, and announcements, while students access materials and submit assignments through a user-friendly interface.

TECHNICAL SKILLS

Database Management

MySQL

Real-Time Systems

Socket.IO (WebSockets), Polling techniques, Real-time order updates, Notifications

Core Concepts

OOP

Programming Languages

Java, JavaScript, C, C++, PHP

Tools & Platforms

GitHub, VS Code, XAMPP

Designing

I have strong UI/UX design skills with hands-on experience using Figma, Canva, and Photoshop. I create clean, user-friendly interfaces, wireframes, mobile and web screens, and engaging digital content by applying effective color theory, typography, and visual hierarchy.

SOFT SKILLS

Leadership & Team Coordination

Students' Union President (2024/2025)

Director of Finance & Fundraising, ZeroPlastic Vavuniya Community(2024/2025)

Organizing Committee Member – IEEE Career Compass 2025

Organizing Committee Member – IEEE Devzprint 2025

Organizing Committee Member – International Youth Day 2024 Youth Convention

AIESEC LB Team Lead (2024–2025)

Active Member, University Mozilla Club

Vavuniya, Srilanka

Effective Communication

I have strong communication skills developed through leading student organizations, organizing events, and working in teams. I can clearly share ideas, listen well, and adjust my communication to different audiences. This helps me work effectively with others, solve problems, and maintain smooth coordination with team members and stakeholders.

Analytical & Problem-Solving, *Creative & Practical Problem Solving*

I have strong analytical and problem-solving skills, developed through leadership roles and project experiences. I am able to assess situations, identify challenges, and devise practical solutions efficiently. This skill helps me make informed decisions, optimize processes, and handle complex tasks effectively in both team and individual settings.

Time Management

I have strong time management skills, developed by balancing leadership roles, internships, and academic work. I prioritize tasks effectively, meet deadlines, and stay organized to ensure high-quality results on time.
